

PRINTING GUIDELINES

BLEED LINE If you have a background colour or image that you would like to print to the edge of your design make sure it extends all the way to the bleed line.

FINISH CUT SIZE This is the final size of your finished product. Please ensure that any important text or images are not sitting on or close to this line otherwise it will be CUT OFF.

MARGIN Keep any important information whether that be text, a table, image or logo within this line. This will help make your design clean and professional.

LOGO AND IMAGE RESOLUTION

Make sure your logo or images are at least 300dpi or higher. If they appear pixelated or stretched on screen, they will appear so in print.

Tip: View your design at the actual size, this may be achieved by either zooming in or out.
